URBAN RESILIENCE PHOTO VOICE:

8 - 11 January 2017

Location: Near the Food Court

Photo Voice is a project initiated by the ICCCAD Youth Programme and Visiting Researcher, Mr. Michael Chew, who trained urban youth on how to take photos on environmental problems and solutions with the objectives:

1. To see urban problems through the eyes of the young people
2. Provide solutions on how to be resilient via photo stories

We would encourage participants of the conference to provide feedback, comments, and possible solutions to problems indicated in the photos by dropping them in the suggestion box.

Participating organizations: ICCCAD, Environmental club of SESM, IUB, Project BE, Save the Children and Jaago
